

## Career Orientation workshop

The *Vamvakou Revival - Αναβίωση Βαμβακούς* team, having the guidance and financial support of *Stavros Niarchos Foundation*, aims to develop and bring new life to this mountain village of Laconia and shape its revival plan by organizing a series of actions, with an emphasis on creativity and innovation.

As part of these actions for the school year 2019/20, Tipping Point is conducting a Career Orientation workshop, with an aim to enable students to interact with professionals from various backgrounds, such as developers, local producers, doctors or scientists, and broaden their horizons and choices!

The workshop is attended by groups of Junior High and High school students from the nearby areas, during their school visits to Vamvakou.
