

Digital & soft skills for the 21st century

Given the new conditions and changes COVID - 19 occurred to the jobs market and youth's needs, the importance of digital and soft skills seems to reflect the essential elements the next generation needs in the modern digital world.

During school year 2020 - 2021, groups of students of Junior High Schools and High Schools around Greece, interacting with experienced professionals will have the opportunity to learn and understand the importance of digital and soft skills, discover ways and means to start developing them, as well as cultivate an innovative and modern way of thinking, in order to achieve personal and professional development.

The project "Digital & soft skills for the 21st century" is implemented with the support of PwC Greece.
